

Educational Funding Program

Instron® Invests in Academia because Academia Invests in Instron

Instron is pleased to announce the reintroduction of a successful program designed to support the curriculum in your teaching laboratory. We understand the need within the academic community to expose students to the most recent technology in testing equipment. Recognizing the strategic importance of having the latest instruments in your laboratories, this program offers you:

- Wide range of Universal and Impact Test Systems for use in **teaching labs**
- Substantial **academic discounts** amount to thousand of dollars in savings
- Powerful and flexible software packages enhance the capabilities of **research and development** labs
- Systems priced as low as **\$13,500**
- Systems configured with specialized accessories meet the needs of **mechanical and biomedical** engineering departments
- High capacity test frames well suited for use in **civil engineering** labs

Contact us directly at 1-800-564-8378 to learn more about these Educational Packages for your institution.
